## Program Report of Rural Child Development Demonstration Zone

## in Bijie Pilot Area

- 留着男孩一样的短发、躲在奶奶身后一言不发——这是“慧育中国”育婴辅导员对婷婷的第一印象。这个出生在贵州省毕节市黄塘村的孩子，家中父亲天生聋哑，母亲患有精神疾病，年幼的她无法得到系统、科学的早期养育和关爱。

**China-REACH home visitor had her first impression of Tingting, with boy-like haircut, hiding behind her grandmother silently. Tingting lives in Bijie Huangtang Village with her father with hearing and speech disability and sickly mother, who is unable to take care of herself. This unfortunate situation makes Tingting unable to receive systematic and scientific early upbringing and care.**

- 三年前，中国发展研究基金会（以下简称“基金会”）“慧育中国：山村入户早教计划”在毕节启动。在及时干预下，婷婷的语言、表达能力、理解能力都大大提高，发育筛查测验结果从“异常”变为了“正常”。

**Three years ago, the China Development Research Foundation (hereinafter referred to as CDRF) launched the program of China-REACH (China Rural Education and Child Health Program) in Bijie. By timely intervention, Tingting's skills of language, expression and understanding were greatly improved, and her result of development screening test was changed to normal.**

- 婷婷是幸运的，她在成长的关键期得到了及时干预。更让人振奋的是，随着“毕节试验区‘农村儿童发展综合示范区’”（以下简称“毕节儿童示范区”）的设立，所有毕节农村地区儿童都有望在0到18岁的每个发展阶段得到覆盖健康营养、教育、保护等方面的干预服务。

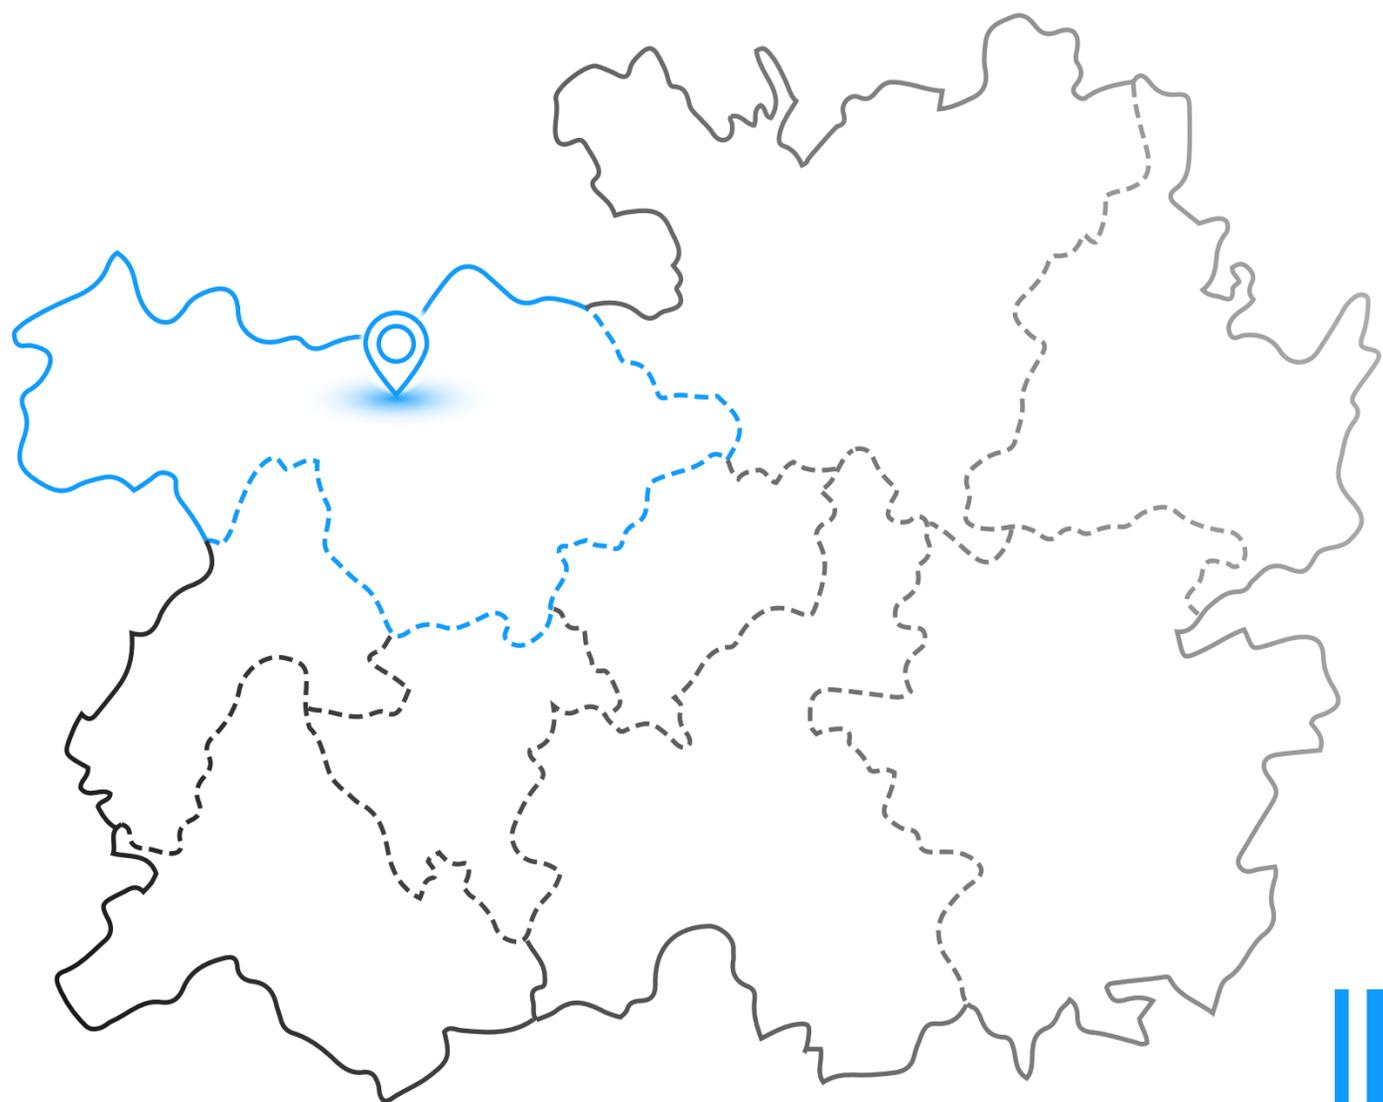

**Luckily for Tingting, she received timely intervention during the critical period of her development. More encouragingly, with the establishment of the Rural Child Development Demonstration Zone in**

**Bijie Pilot Area (hereinafter referred to as the Child Development Demonstration Zone in Bijie), all children in rural Areas of Bijie are expected to receive intervention services covering health nutrition, education, protection and other aspects at every stage of development from the age of 0 to 18.**

- 2021年9月15日，全国政协人口资源环境委员会主任、中国发展研究基金会理事长李伟、中国发展研究基金会秘书长方晋带队赴毕节调研，方晋与毕节市人民政府副市长丹彤正式签署毕节儿童示范区项目合作协议，标志着毕节试验区“农村儿童发展综合示范区”项目正式落地。

**On December 15, 2021, Chairperson of the Committee on Population, Resources and Environment of CPPCC and CDRF Chairman Li Wei and CDRF Secretary General Fang Jin led a team to Bijie for field research. Fang Jin, CDRF Secretary General, and Dan Tong, Vice Mayor of Bijie City, signed the cooperation agreement of the Rural Child Development Demonstration Zone in Bijie Pilot Area Program.**

## 一、项目概况

### 1. Project Introduction

- 贵州毕节曾属西部贫困地区的典型，人民生活贫困，生态恶化，一度陷入“越生越垦、越垦越穷、越穷越生”的恶性循环。

Bijie used to be a typical poor area in western China, where people suffered from the vicious circle linking poverty and environmental degradation. Poor people were forced to exploit the land harder and had more children as they sought basic provisions to improve their livelihood, which led to a further degraded environment that produced less, and people became more vulnerable.

- 1988年，国务院批复同意建立以“开发扶贫、生态建设、人口控制”为主题的“毕节试验区”。

In 1998, the State Council of China approved the establishment of the Bijie Pilot Area which targets poverty alleviation, eco-conservation, and population management.

- 2012年起，基金会在毕节先后实施了“一村一园：山村幼儿园计划”、“慧育中国：山村入户早教计划”、“赢未来：职业教育提升计划”等项目，推动毕节反贫困和儿童发展事业。

Since 2012, CDRF has implemented several programs, including "One Village One Preschool (Village Early Education Center Program)", "China-REACH (China Rural Education and Child Health Program)", and "For the Future (Vocational Education Enhancement Program)", to promote local anti-poverty and child development.

- 为贯彻落实习近平总书记关于将毕节试验区建成贯彻新发展理念示范区的重要指示，中国发展研究基金会与贵州省、市、区三级政府及多个部门共同推进了毕节试验区“农村儿童发展综合示范区”项目的建设。该项目以儿童营养、教育和关爱保护为重点，采取精准干预和信息化手段，实现填空白、补短板、提质量、试模式、促协调的目标，为乡村振兴及相关政策制定提供依据。

In order to implement the important instructions of President Xi Jinping, CDRF and the provincial, municipal, and district governments in Guizhou, together with other relevant authorities and agencies, have

- jointly promoted the implementation of the program of Rural Child Development Demonstration Zone in Bijie Pilot Area. The program of Child Development Demonstration Zone in Bijie focuses on nutrition, education, care, and protection of children and will employ precise interventions enabled by information technology. It strives to fill in the missing parts, strengthen the weak points, improve the quality, and promote coordination. Ultimately, it aspires to contribute to policy-making on rural revitalization and relevant areas.
- 目前基金会在七星关区朱昌镇、大银镇、林口镇、层台镇4个乡镇开展毕节儿童示范区工作试点。预期2022年示范区将扩展至七星关区14个乡镇，以及毕节其它县（区）的7个乡镇，2023-2025年扩展到七星关全区，并在毕节试验区全面推广。

CDRF is carrying out the program of Child Development Demonstration Zone in Bijie in four townships in Qixingguan District, Dayin Town, Linkou Town, and Cengtai Town. It is estimated that the demonstration zone will be expanded to 14 townships in Qixingguan District and seven townships in other counties (districts) in Bijie in 2022, cover the entire Qixingguan District and promote in the Bijie Pilot Area in 2023-2025.

## 二、项目亮点 2. Project Highlights

### 2.1 得到各级领导高度重视

The program is highly valued by leaders.

- 2018年，习近平总书记对毕节试验区工作作出重要指示，要求毕节试验区“做好同2020年后乡村振兴战略的衔接，着力推动绿色发展、人力资源开发、体制机制创新，努力把毕节试验区建设成为贯彻新发展理念的示范区”。

In 2018, President Xi Jinping made important instructions on Bijie Pilot Area, requiring that Bijie should "align with the post-2020 strategy of rural revitalization, focus on green development, human resources development, and institutional innovation, and strive to become a demonstration zone for implementing the new development philosophy".

- 2020年，中国发展研究基金会理事长李伟、副理事长卢迈向贵州有关方面提出建设“毕节试验区‘农村儿童发展综合示范区’”的建议。这一建议得到了贵州省委和省政府的大力支持。贵州省委书记、省人大常委会主任谌贻琴对“毕节儿童示范区”的设立作出重要批示。省委组织部协调各相关省直部门有效推进相关工作。毕节各级政府积极行动，支持示范区建设工作。

In 2020, CDRF Chairman Li Wei, and CDRF Vice Chairman Lu Mai suggested to relevant authorities in Guizhou to build the Rural Child Development Demonstration Zone in Bijie Pilot Area. This proposal has received strong support from Guizhou Provincial Party Committee and the provincial government. Chen Yiqin, Secretary of the Guizhou Provincial Committee of the CPC and Chairman of Standing Committee of Guizhou Provincial People's Congress, gave important instructions on the implementation of the program of Child Development Demonstration Zone in Bijie. The Organization Department of Guizhou Provincial CPC Committee coordinates all relevant provincial departments to effectively promote relevant work. Bijie governments took active actions at all levels to support the construction of the demonstration zone.

## 2.2 建成全国首个欠发达地区儿童发展综合示范区

### Building China's first child development demonstration zone in underdeveloped areas.

- 大量的实证研究和国际经验均表明，投资贫困儿童早期发展，对儿童成长早期的营养、健康、教育等方面进行积极干预，可以显著改善儿童发展的不利地位，比儿童成长后期的补救性干预效果更好、收益更高，是消除贫困代际传递的根本之策。

A large body of literature shows that investing in the early childhood development of disadvantaged children through interventions on nutrition, health, and education in the early years will mitigate the adverse conditions and hence their negative impacts on children's development. It yields a high investment return compared to remedial interventions in the later stage of life. Therefore, investment in early childhood development is an effective strategy for preventing the intergenerational transmission of poverty.

- 国家对欠发达地区儿童发展已经出台了一系列支持政策，但是没有形成系统的政策体系，短板缺项较多，投入力度也比较有限。毕节儿童示范区是基金会与贵州省、市、区三级政府及多个部门共同推进的欠发达地区农村儿童发展示范项目，旨在通过建成全国首个欠发达地区儿童发展综合示范区，为其他欠发达地区儿童发展相关工作和乡村振兴及相关政策制定提供依据。

China has adopted a series of policies supporting the development of children in underdeveloped areas. However, with a comprehensive policy system yet to be established and limited investment, there are still several weak points and missing parts. The Child Development Demonstration Zone in Bijie, jointly promoted by CDRF and the provincial, municipal, and district governments in Guizhou, together with other relevant authorities and agencies, aims for China's first child development demonstration zone to support policy-making rural revitalization and relevant areas.

## 2.3 实施0-18岁儿童发展综合干预

### Conducting a comprehensive intervention for children 0-18 years old.

- 毕节试验区“农村儿童发展综合示范区”着力推动人力资源开发，不仅仅停留于某一时间节点或短期内的儿童发展，而是通过多项目无缝衔接，对贫困地区0-18岁儿童及青少年发展实现全面覆盖，综合实施从出生到就业的全生命周期试验项目。

Focusing on human resource development, the program of Child Development Demonstration Zone in Bijie is not limited in a certain time period or only focuses on short term child development. On the contrary, it covers the whole life cycle from birth to employment by conducting many programs that serve to the development of 0-18 years old children and adolescents.

- 毕节儿童示范区项目具体分为六个阶段：“农村儿童发展综合示范区”项目具体分为：

The program of Child Development Demonstration Zone in Bijie includes six stages:

(一) 孕产期至婴儿6月龄营养干预及母乳喂养指导,新生儿出生缺陷康复治疗补助;

(1) Nutritional intervention and breastfeeding guidance from pregnancy and perinatal period to 6 months of age and treatment subsidy for birth defects among newborns;

(二) 6-36月龄婴幼儿早期养育指导及营养干预;

(2) Early parenting guidance and nutritional intervention for infants aged 6-36 months;

(三) 3-6岁农村儿童高质量学前教育普及、幼小科学衔接;

(3) Promoting universal access to high-quality preschool education and constructing scientific link between kindergarten and primary school for rural children aged 3-6;

(四) 6-15岁义务教育阶段营养保障及教学质量提升;

(4) Enhancing nutrition and the quality of school teaching and learning for children 6-15 years old;

(五) 15-18岁职业教育质量提升;

(5) Improving quality of vocational education for children 15-18 years old;

(六) 0-18岁村级儿童关爱保护体系全面建立。

(6) Establishing a comprehensive care and protection framework for children under 18.

## 2.4 借鉴大量成功试点经验

CDRF has extensively carried out social pilot projects on school feeding, infant and young child nutrition improvement, preschool education, and early childhood parenting in 31 countries among ten provinces, including Qinghai, Yunnan, Guizhou, etc., which directly promoted the formulation of national policies. President Xi Jinping made essential instructions on reports submitted by CDRF three times in 2013, 2018, and 2019. CDRF's long-term and effective intervention practice and empirical research in child development provide solid theoretical and practical support for constructing the demonstration zone.

- 同时，基金会儿童项目参考了国际家访课程Reach Up and Learn，这一成熟的干预模式也对毕节儿童示范区项目的设计、执行、评估和研究有重要借鉴意义。

Meanwhile, CDRF also draws on the international home-visit course—Reach Up and Learn. This mature intervention model has important reference significance for the program's design, evaluation, and research.

## 2.5 多部门协作，社会力量共同参与

- 发改、教育、卫健、民政、妇联等各部门各司其职、明确分工，在儿童发展的各个阶段发挥主导和协调作用。

other departments Guizhou Provincial Development and Reform Commission, Provincial Department of Education, Provincial Health Commission, Provincial Department of Civil Affairs, and Provincial Women's Federation play leading and coordinating roles in all stages of child development by performing their respective duties and clearly dividing their works.
