提升企业国际竞争力专题研究班 China Executive Leadership Program

受中组部和国务院发展研究中心委托，2015年7月4日至23日，中国发展研究基金会承办了提升企业国际竞争力专题研究班。来自国有大型金融机构与重要骨干企业，以及政府机构的21位学员赴英国剑桥大学参加了培训。

本期研究班以“提升中国企业国际竞争力”为主题，研修内容覆盖政治经济、企业技术创新、领导力、全球供应链、信息技术的全球价值链、能源与环境、国有企业改革、公司治理、国际金融、剑桥大学的科学以及英国社会变迁等。

通过学习，学员们一致认为：中国企业参与国际竞争是大势所趋。随着中国经济进入新常态，发展速度放缓，工业产能过剩和市场需求不足的矛盾变得更加突出。对中国企业来说，“走出去”，开拓国际市场，拓展发展空间，变得非常重要。习近平主席提出共同建设“一带一路”的倡议，亚投行的成功签约，为中国企业在全球市场提供了难得的历史机遇。不管是巩固国内市场，还是参与国际竞争，都要求中国企业必须加快提升国际化经营能力，下大力气培育中国的优质跨国公司。

As entrusted by the Organization Department of the CPC Central Committee and Development Research Center of the State Council, CDRF organized the China Executive Leadership Program from July 4 to 23, 2015. 21 participants from large state-owned financial institutions, major enterprises and government departments headed to University of Cambridge for the training.

Themed on “enhancing international competitiveness of Chinese enterprises”, the training covered politics, economy, corporate technological innovation, leadership, global supply chain, global value chain of information technology, energy and environment, reform of state-owned enterprises, corporate governance, international finance, Cambridge science and British social transformation.

The participants agreed after the training that it is the general trend that Chinese enterprises are engaging in international competition. As the Chinese economy has entered the new normal and the growth rate is lower, the contradiction between industrial overcapacity and insufficient market demand becomes increasingly conspicuous. For Chinese enterprises, to “go global” to expand the international market and space for development becomes very important. “The Belt and Road” Initiative proposed by President Xi Jinping and the successful agreement signing for Asian Infrastructure Investment Bank present rare historic opportunities for the enterprises in the global market. No matter it is for the purpose of consolidating the domestic market or participating in international competition, it is imperative for Chinese enterprises to accelerate efforts to improve their ability in internationalized operation and to grow into competitive multinationals.

新型城镇化与公共管理专题研究班
China's Leaders in Development Executive Program

受中组部和国务院发展研究中心委托，中国发展研究基金会承办了第13期新型城镇化与公共管理专题研究班。研究班于2015年8月10日至9月20日在清华大学和美国哈佛大学举办，来自中央国家机关和省区市的35位学员参加了本期研究班。

研究班聚焦新型城镇化，坚持问题导向，坚持比较借鉴，坚持课堂教学与实地考察相结合，研究培训成果丰硕。通过学习，学员对美国经济、政治、社会实际运行有了更直观的认识，对美国城市治理的理念和经验有了更深刻的感悟，对公共管理理论和方法有了更系统的掌握；为今后在各自的工作岗位上指导推进新型城镇化，提升公共管理水平提供了借鉴。

As entrusted by the Organization Department of the CPC Central Committee and DRC, CDRF organized the 13th annual session of the China's Leaders in Development Executive Program. The training program was held in Tsinghua University and Harvard University from August 10 to September 20, 2015 and was joined by 35 officials from the central state organs as well as governments of provinces and cities.

Focusing on new-type urbanization, the training program adopted a problem-oriented approach and combined lectures with field studies. Through comparison and cross-checking, the participants found the program productive. They gained a better understanding about the US economic, political and social circumstances, learnt about the concept and experience of the US in city governance, and grasped the theories and methodology in public administration more systematically. The program is significant to the participants since it would guide them in promoting new-type urbanization and improving public administration.

2015年4月、7月、10月，中国发展研究基金会分别以“公共政策与沟通”、“对外信息发布”、“战略沟通的核心地位”为专题主办了三期研讨和讲座。参加学习的领导干部包括国务院各部门、重点高校、央企负责人、各省市区政策研究部门、中央机关相关单位、部分中央媒体相关部门负责人等，共计94人次，其中包括中管干部53人次。

讲座分别聘请美国南加州大学安娜伯格传媒学院和英国华誉公司外国专家授课，国务院副秘书长王仲伟、孟扬、国新办副主任郭为民、全国人大外事委员会主任傅莹等出席讲话或授课。这一系列专题讲座及研讨以全媒体时代为大背景，围绕深化改革和公共政策制定及实施过程中如何加强与利益相关方的沟通与管理，进行了专题学习，旨在使学员增强战略沟通意识，拓展国际沟通视野，掌握沟通方法技巧，切实提高政府部门开展政策沟通、公众沟通和对外沟通的效果和水平。讲座和研讨采取课堂授课、案例分析、分组讨论和情景模拟等多种形式，强调教师 and 学员的互动，帮助领导干部理解国际通行的公共政策沟通理念，掌握面向媒体和公众发布信息的实务规范。

The report was printed and delivered to provincial education departments.

河南省公共支出绩效管理 Management and Supervision on Public Expenditure Performance in Henan

本项目是中国发展研究基金会自2004年开始确立的“公共预算与地方财政”研究领域的进一步延伸与细化。项目自2014年5月开始至2015年6月结束，完成主报告1份、分报告4份。下一步将继续探索在“十三五”规划时期，如何深入推进地方预算绩效管理，进一步提升地方政府支出绩效。

课题首次提出了“战略引领的全过程绩效管理框架”，并根据河南省实际情况设计了具体操作政策建议。评审专家普遍认为，研究切中时弊，有利于解决当前支出较为随意，政府决策与预算“两张皮”的突出问题，从体制和机制上铲除了管理中权责不匹配导致绩效不高的根子。为河南省开发的绩效预算管理框架不仅有助于河南省成功实施绩效预算，提高支出绩效和治理水平，而且对中国其他地方完善绩效预算具有重要的借鉴意义。

The program was the extension and refinement of the study on “public budget and local finance” unfolded by CDRF since 2004. It started in May 2014 and concluded in June 2015, with one master report and four sub-reports delivered. For the next step, it will continue to explore how to promote local budget performance management and improve expenditure performance of local governments during the 13th “Five-year” Plan period.

The program proposed the “strategy-guided whole-process performance management framework” for the first time and made specific operation policy suggestions according to the actual circumstances in Henan. Review experts agreed that the study cut into the present-day malpractices, helped solve the problems of random expenditure and separation between government decision-making and budgeting, and rooted out the causes of low performance, i.e., the mismatch of power and responsibility in system and mechanism. The performance budget management framework developed for Henan was not only helpful for the province to successfully implement performance budget and improve expenditure performance and governance, but was highly relevant to other areas in China for improving local performance budget.

山村幼儿园计划

Village Early Education Center Project (VEEC)

2015年，中国发展研究基金会继续在8省12县开展山村幼儿园计划。首先，项目继续努力实现各试点县的全覆盖和政策推广；其次，组织团队加强对山村幼儿园项目的全面整体评估；第三，加强有关山村幼儿园的公众宣传和筹资。

截至2015年11月，共在青海、贵州、湖南等8个省（区）的12个县，设立山村幼儿园798所，招聘幼教志愿者800人，在园幼儿20328人。项目成果受到地方政府的支持和欢迎。2013年,青海省在全省15个县推广，设置山村幼儿园911个，在园幼儿1.8万余人；贵州省铜仁市实现全市覆盖，财政削减各部门10%的行政经费，建成2005所山村幼儿园，学龄前儿童入园率达到91%；2015年年底,新疆阿勒泰地区决定实施“雏鹰工程”，在未来三年，每年拿出1000万元财政经费，在全地区范围内推广。项目取得了阶段性成果。

同时，基金会委托华东师范大学周念丽教授的团队对山村幼儿园进行了独立第三方评估。评估结果表明，山村幼儿园组，在社会性、情绪表达和控制以及动作发展已优于县城幼儿园组；而在认知和语言的发展上仍略逊于县城幼儿组，但远高于散居儿童；山村幼儿组在绘画方面比县城和散养儿童都更富有创造力。

In 2015, CDRF continued to unfold the VEEC project in 12 counties of 8 provinces. First, the project strived to cover all the pilot counties and promote related policies. Second, it organized a team to strengthen the comprehensive evaluation. Third, it enhanced publicity and fund raising for the VEEC project. Up to November 2015, a total of 798 VEECs were founded in 12 counties of 8 provinces (prefectures) such as Qinghai, Guizhou and Hunan, which hired 800 volunteer teachers and received 20,328 children. The project was supported and welcome by the local government. In 2013, Qinghai Province promoted the program in 15 counties and founded 911 kindergartens, which received 18,000 children. Full coverage of the program was realized in Tongren, Guizhou, which reduced administration expenses of government departments by 10%; 2,005 kindergartens were set up, with the enrollment rate of preschool children reaching 91%. At the end of 2015, Altay Prefecture in Xinjiang decided to implement Eyas Program, which would input an annual fund of RMB10 million in the next three years to promote the VEECs across the prefecture. The project has made phased achievement. Meanwhile, CDRF entrusted the team led by Prof. Zhou Nianli with East China Normal University to conduct an independent third-party evaluation. The result indicated that the group of VEECs outperformed the group of county seat VEECs in sociality, emotion expression and control, and motor development, but was slightly behind the latter in cognition and language development though it far outperformed the group of scattered children. The group of VEECs was more creative than the group of county seat VEECs and scattered children in painting.

阳光校餐网
School Nutrition Improvement Initiative

2015年4月，中国发展研究基金会接受教育部和全国营养办委托，开展“阳光校餐”项目。这是我国首个通过手机APP、互联网和大数据等技术实施公开监督，评估民生政策落实情况与效果，展示计划执行信息，监测地方物价和食品采购，分析贫困地区学生营养量改善情况，交换国际和国内学生营养改善的经验，搭建学生营养健康教育和公众慈善捐赠的综合平台。目的是规范计划执行，改善贫困地区农村学生营养现状，降低营养不良率，将这一民生工程打造为“放心工程”、“阳光工程”、“民心工程”。

“阳光校餐”项目现已覆盖14个试点省、101个贫困县、379万贫困农村义务教育学生。自今年5月以来，阳光校餐数据后台已收集分析数据28万条，照片42万张。

In April 2015, CDRF was entrusted by the Ministry of Education and National Students Nutrition Office with the “School Nutrition Improvement Initiative” program. This was China’s first comprehensive platform that used mobile APP, Internet and big data to implement public supervision, evaluate progress and effect of implementation of livelihood policies, report information on project execution, monitor local price and food procurement, analyze the status of student nutrition improvement in poverty-stricken areas, exchange foreign and domestic experience in student nutrition improvement and promote related education and charity donation. The purpose was to standardize the program execution, improve the nutrition status of students living in rural poverty-stricken areas, reduce malnutrition rate and build the program into a “quality-assured”, “sunshine” and “popular” project.

The “School Nutrition Improvement Initiative” program has covered 3.79 million rural students of compulsory education who live in poverty in 101 poverty-stricken counties in 14 pilot provinces. Since May 2015, its back-end database has collected and analyzed 280,000 pieces of data and 420,000 photos.

儿童早期养育试验项目
Experimental Program on Early Childhood Parenting

A. 甘肃省华池县儿童早期养育项目
Early Childhood Parenting Program in Huachi County, Gansu

针对贫困地区0-3岁儿童早期发展水平低，缺乏科学系统的养育知识、技巧和养育服务的现状，在未来3年的时间里，中国发展研究基金会将在甘肃省贫困的革命老区华池县开展以早期养育为主的综合性儿童早期发展项目。借鉴牙买加家访项目经验和执行方法，项目对全县1600名6-36个月儿童提供养育指导和营养干预。目的在于通过华池的试验和研究评估工作，为政府的儿童政策制定提供更多科学依据，推动政策尽早实施。

2015年9月，家访干预正式启动。目前已完成的工作包括：第一，实施儿童早期养育状况入户问卷调查和数据分析；第二，开展乡镇督导和家访员的两级培训；第三，在被随机选为干预组的村，全面启动每户每周一次的家访指导，并形成乡镇督导定期培训家访员、县乡两级督导定期督察和汇报进展的工作机制；第四，完成儿童基线调查报告。

Given the current status of low early childhood development level and the lack of scientific and systematic parenting knowledge, skills and service for the 0-3 year old in poverty-stricken areas, CDRF will launch a comprehensive early childhood development program focusing on early childhood parenting in Huachi County, Gansu, in the next three years. By drawing on the experience of Jamaica Home Visit Project, the program will provide parenting guidance and nutrition intervention for 1,600 children of 6-36 months. The purpose is to make the experiments, research and evaluation work in Huachi into a basis for children-related policy making of the government and drive relevant policies to be implemented as soon as possible.

In September 2015, the home visit intervention was launched. The followings have been finished so far. First, in-home questionnaire survey on the status of early childhood parenting and data analysis have been implemented. Second, trainings are offered to township supervisors and home visitors. Third, in the village which is selected as the intervention group at random, weekly home visit to related households has been comprehensively initiated and the working mechanism that township supervisors regularly train home visitors and that county and town-level supervisors regularly inspect and report the progress has been established. Fourth, the child baseline survey report has been completed.

B. 城市流动及贫困儿童家访示范项目
Home Visit Demonstration Program for Urban Floating
and Poverty-stricken Children

2015年，中国发展研究基金会继续在北京肖家河社区和云南昆明市的船房社区开展流动及贫困儿童家访示范项目。项目覆盖500名6-24个月的流动婴幼儿。2015年项目着重经验模式的总结，加大经验推广的力度和范围，并开展了项目中期测试工作。目前已完成项目团队的优化，提升了家访的质量，完成项目中期测试和项目报告，总结模式和经验。

In 2015, the program highlighted summarization of experience, promoted the experience with greater efforts and in a larger area, and conducted the interim test. So far, the program team has been optimized, quality of home visits has been improved, and the interim test and the program report have been completed, with experience summed up.

西部农村小学信息化教育
E-Learning Program in West China Rural Primary Schools

针对西部贫困农村小学师资不足，基础设施差，乡镇中心小学和村教学点的教学质量堪忧，同时贫困农村孩子和城市孩子相比存在巨大的数字鸿沟问题，中国发展研究基金会2015年在青海乐都和贵州松桃实施了“西部农村小学信息化教育”项目。两地共有8所学校约500名师生参与。项目由实时视频课堂和课后平板电脑学习两部分构成。师生人手一个平板电脑。资源校为县城重点小学，实验校为乡镇中心校和村教学点。

目前已完成信息化教学系统的开发和建设，平板电脑的采购和配备，进行了基线测试，开展了信息化教学活动，组织了人员培训，项目管理和质量得到了提升。

Given the fact that western rural primary schools in poverty-stricken areas are short-staffed and backward in infrastructure, that teaching quality of township primary schools and village teaching centers is worrisome and that an enormous digital gap exists between rural poverty-stricken children and their urban peers, CDRF carried out the “E-Learning Program in West China Rural Primary Schools” in Ledu, Qinghai and Songtao, Guizhou in 2015. A total of 500 teachers and students in eight schools from the two areas participated in the program that consisted of two parts, real-time video class and after-class learning with tablet PC. Each participant was provided with a tablet. Resource schools were county seat key primary schools while experiment schools were township schools and village teaching centers.

At present, the program has finished development and construction of the information-based teaching system, procurement and equipping of tablets and the baseline test, organized information-based teaching activities and provided training for related personnel, which significantly improves the program management quality.
