## 理事长致辞

## FROM THE CHAIRMAN

中国发展研究基金会作为中国国务院发展研究中心发起设立并领导的全国性公募基金会，自 1997 年成立以来，在各方面的大力支持下，积极组织开展发展领域的政策研究、社会试验、国际交流合作等工作，逐渐成为中国扩大政策沟通、与世界对话合作的重要纽带，为服务中国发展发挥了独特作用。

刚刚过去的 2019 年，基金会各项工作继续取得新的成绩，亮点纷呈。我们恪守智库型基金会定位，围绕科学决策的需求，高质量完成中美贸易摩擦对经济的影响、人口老龄化的发展趋势和政策、多层次医疗保障体系构建、全过程预算绩效管理改革等多项课题的研究，引起了政府决策者和社会各方面的重视。

我们聚焦贫困地区儿童发展，扩大“慧育中国：山村入户早教计划”试点，巩固提升“一村一园：山村幼儿园计划”成果，深入实施中等职业教育赢未来计划。让我们备受鼓舞的是，习近平总书记继 2013、2018 年后，再次对基金会呈送的贫困地区儿童发展报告作出重要批示，充分展示了基金会社会试验工作的价值。我

们将进一步总结试点经验，为推动形成国家层面的政策和机制提供更扎实的理论和实践支撑。

我们持续深化与各类智库、研究机构、大学、地方政府、跨国企业、国际组织的合作，巩固中国发展高层论坛等交流品牌，举办中国儿童发展论坛、职业教育发展国际研讨会等，与意大利有关机构共同设立中意慈善论坛，政策研究和国际交流网络进一步拓展。

旧岁已展千重锦，新年再进百尺竿。2020 年，基金会将继续紧紧围绕中国发展中的现实问题、中国正在做的事情，响应政府决策和社会需要，为中国和世界共同发展提出更多更有价值的思想产品。衷心感谢社会各界对中国发展研究基金会的大力支持！

The China Development Research Foundation (CDRF) is a public foundation established by the Development Research Center of the State Council in 1997. Since its founding, the CDRF has been working with all sectors on policy research, social programs and international exchanges and cooperation on development. The CDRF has served China's development as an important platform to expand dialogue on national policies and engage in international communication and cooperation.

In 2019, the CDRF has made fruitful achievements on all fronts. As a think-tank foundation that helps make informed decisions, the CDRF carried out high quality research projects on economic implications of the China-U.S. trade frictions, population aging trajectory and corresponding policies, the multi-layer medical insurance system, and the reform toward comprehensive performance based budget management. These projects have drawn keen attention from decision makers and the general public.

The CDRF also focuses on child development in poor areas. We set up more pilot areas for the China Rural Education and Child Health (China REACH) program, saw more results from the One Village One Preschool (OVOP) program, and advanced the For the Future program that promotes secondary vocational education.

It was inspiring to see that President Xi Jinping made important comments and instructions on the CDRF report on child development in poor areas for the third time after the year 2013 and 2018. This is a demonstration of the value of our

social experiment programs. In the future, we will draw experience from the many pilot programs to provide methodological and practical support for the formulation of state-level policies and mechanisms.

We have deepened policy research and international exchanges by sustaining cooperation with think tanks, research institutes, universities, local governments, multinationals and international organisations. In this way, we have consolidated our flagship event of the China Development Forum (CDF), held the China Child Development Forum, and the International Conference on Vocational Education and Training Development, and set up the China Italy Philanthropy Forum with Italian partners.

In the new year, the CDRF will aim even higher for greater well-being of all. In 2020, we will remain focused on practical issues surrounding the development of China and current agendas, and respond to decision making of the government and the needs of the society to offer more valuable knowledge-based products and services for China and the world. We give our heartfelt appreciation to the support the CDRF have received from all our friends.
