2020 年是极不寻常、极不平凡的一年。突如其来的新冠肺炎疫情给中国和世界带来了前所未有的挑战,对全人类健康和全球治理造成了严重威胁,可以说是历史性的世界大事件。一年来,中国发展研究基金会在国务院发展研究中心领导下,在各方面的大力支持下,积极开展抗击疫情、国际交流、政策研究和社会试验等,各项工作取得了一系列新的可喜成绩。

面对汹涌肆虐的疫情,我们积极多 方募集抗疫物资,支援脱贫地区开展疫情 防控工作;配合国家外交大局,参与开展 国际抗疫援助;发挥平台优势,组织国际 抗疫交流研讨。

我们正视挑战,迎难而上,成功举办第21届中国发展高层论坛、第17届中美金融研讨会、第2届中国儿童发展论坛、第4届促进母乳喂养国际高峰论坛等,在各国交流被疫情阻断的不利局面下,有

效发挥了中国与世界对话的重要 纽带作用。

> 我们锚定国 际一流智库型 基金会目标, 高质量完成全 球新冠疫情的 演变趋势、百 年未有之大变

局中的中美经贸合作与竞争、人口老龄化 的发展趋势和政策、国家医保药品管理政 策、现代财政治理体系构建等研究,为政 府决策提供及时、管用的咨询参考。

我们紧扣经济社会发展中的短板缺项,持之以恒开展反贫困与儿童早期发展社会试验,及时总结试点经验,深化政策研究和宣传倡导,努力为推动形成国家层面的政策和机制提供扎实的理论和实践支撑。2020年习近平主席两次对基金会呈送的建议报告作出批示,提出了重要的指导意见。

新故相推,日不生滞。2021年,中国将开启全面建设社会主义现代化国家新征程。站在新的历史起点上,基金会将恪守支持政策研究、促进科学决策、服务中国发展的初心,坚持服务大局,紧紧围绕中国发展中的重点难点问题,继续深入开展政策研究和社会试验等工作,积极拓展国际合作交流,努力为中国全面建设社会主义现代化强国作出新的更大贡献。

衷心感谢社会各界对中国发展研究基 金会的大力支持!

新故相推,日不生滞。2021年,中国将开启全面建设社会主义现代化国家新征程。

The world moves on in a never-ending process of the new replacing the old. In 2021, China will embark on a new journey of fully building a modern socialist country.

The year 2020 is an eventful and extraordinary year. COVID-19 pandemic has posed unprecedented challenges to China and the world and threatened human health and global governance, a major historic event of the whole world. Over the past year, thanks to the leadership of the Development Research Center of the State Council and the support from all parties, China Development Research Foundation has fought against the pandemic and conducted international exchanges, policy researches, and social experiments. New achievements have been made in all aspects.

Confronted by the rampant pandemic, we raised materials for disease control, support impoverished areas in preventing and controlling the pandemic, participated in international epidemic control assistance, and convened international exchanges and seminars by taking advantages of our platform.

We rose up to the challenges and successfully held the China Development Forum 2020, the 17th US-China Symposium on Building the Financial System of the 21st Century, the second China Child Development Forum, Breastfeeding Promotion Forum 2020, and other conferences.

Despite the pandemic that hinders exchanges among countries, we acted as a bridge linking China and the world.

Aiming at developing ourselves into a world-class think tank foundation, we completed researches on the global trend of COVID-19, China-US economic and trade cooperation and competition, trend and policy of aging population, national drug reimbursement policies and modern fiscal governance system. Such high-quality researches have provided timely and effective references for government decision-making.

Targeting the shortcomings in economic and social development, we carried out social experiments on anti-poverty and early childhood development, summarized the good practices of pilot projects in a timely manner and deepened policy researches and publicity, to provide solid a theoretical and practical foundation for national-level policies and mechanisms. In 2020, President Xi Jinping gave instructions on the recommendation reports submitted by the CDRF twice, and put forward significant guiding opinions.

The world moves on in a never-ending process of the new replacing the old. In 2021, China will embark on a new journey of fully building a modern socialist country. Standing at a new historical starting point, the CDRF will stay true to its original mission of supporting policy researches, promoting science-based decision-making and serving China's development, continue to carry out in-depth policy researches and social experiments on the key and difficult issues in China's development to serve the whole picture and expand international cooperation and exchanges, so that we can make new and greater contributions to China's economic and social development.

We hereby would like to extend sincere gratitude to all sectors of society for your support for the CDRF.

Survey on Early Childhood Development in Poor Areas

走遍万水千山,记录孩子的笑脸

2020年,习近平主席两次在中国发展研究基金会反贫困与儿童 发展领域报告上作批示和圈阅。遵循习近平主席批示精神,基金会在 反贫困与儿童发展领域进行了深入的实践探索和政策研究。

In 2020, President Xi Jinping made instructions on the CDRF's anti-poverty and children development reports twice. Following the instruction, the Foundation carried out in-depth policy research on anti-poverty and children's development.

调研缘起

2020年6月1日,在国务院发展研究 中心、全国妇联、全国政协人口资源环境委 员会的指导下,中国发展研究基金会与合作 伙伴共同举办第二届中国儿童发展论坛。

全国人大常委会副委员长、中华全国妇 女联合会主席沈跃跃与全国政协人口资源环 境委员会主任、中国发展研究基金会理事长 李伟在论坛上决定, 要着手摸底脱贫地区儿 童发展的水平,为"十四五"规划中儿童相 关政策的制定提供实证依据。

On June 1, 2020, under the guidance of Development Research Center of the State Council, All-China Women's Federation and the Committee on Population, Resource and Environment of CPPCC, the CDRF and its partners jointly held the 2nd China Child Development Forum.

Shen Yueyue, Vice Chairperson of the standing committee of the NPC and Chairwoman of All-China Women's Federation and Li Wei, Chairperson of the Committee on Population, Resources and Environment of CPPCC and Chairman of the CDRF decided to investigate the level of children's development in poor areas, with a view to providing empirical evidence for the making of children-related policies in the 14th Five-Year Plan.

调研方法

2020年8月至9月,在全国妇联的指导下,中国 发展研究基金会和中国儿童中心组成近百人的课题组, 通过问卷调查、现场测评、实地走访、部门座谈等形式, 对原 680 个国家贫困县中随机抽取的 20 个县 64 个村 5353 名 0-6 岁儿童及其家庭,以及数个中国发展研究 基金会和全国妇联项目县儿童及其家庭, 进行了儿童早 期发展综合性调查。

From August to September 2020, under the guidance of All-China Women's Federation, a research group of nearly 100 members, formed by the CDRF and China National Children's Center, conducted a comprehensive survey on early childhood development through questionnaire, onsite assessment, field visit, and department discussions. The research includes 5,353 children aged 0 to 6, randomly drawn from 64 villages of 20 counties among the then 680 impoverished counties, their families and several from the targeted counties in the program of China Development Research Foundation and All-China Women's Federation.

The joint research group comprehensively investigated the development, education, family, and nutrition of local children with screening tools.

调查结果显示,脱贫攻坚惠及广大儿童和家庭,儿童早期发展事 业取得可喜成绩。但受到经济社会发展水平的制约,儿童早期发展中 不平衡不充分的问题仍然突出,地区差异、城乡差异、不同年龄阶段 儿童发展的差异仍然存在。

调查测评了儿童的粗大动作、精细动作、语言、社会行为、适应能力等反映儿童综合发展水平的指标。 结果显示,中部、西北、西南脱贫地区 0-3 岁儿童的综合发展滞后比例分别为 19.8%、25.4%、31.7%, 是全国平均水平5%的4倍、5倍、6倍。3-6岁儿童的综合发展状况也不乐观,西南地区的发展滞后比例 最高,达到30.2%。

在推进脱贫地区儿童发展过程中,尤其要关注 0-6 岁乡村儿童的早期发展,将促进儿童早期发展放在 更加优先考虑的位置,制定政策、采取措施、配置资源等方面,要实施更加积极的政策,为儿童早期发展 的营养健康、教育服务、家庭支持等方面提供政府支持和服务保障。

The survey shows that the fight against poverty has brought benefits to children and their families, with great achievements having been made in early childhood development. But due to the restraints in economic and social development level, unbalanced and insufficient early childhood development is still a prominent issue, and differences among regions, between urban and rural areas, and among age groups still exist.

In the research, several aspects of children's comprehensive development are screened, including children's gross and fine motor function, language ability, social ability, and adaptivity. The results show that the proportion of children aged 0-3 lagging behind in comprehensive development in central, northwestern and southwestern areas are 19.8%, 25.4%, and 31.7% respectively, which are in the range of four to six times that of the national average of 5%. The overall development of children aged 3-6 is also not optimistic, with the highest lagging rate of 30.2 percent in Southwest China. In promoting children's development in areas lifted from poverty, special attention shall be paid to the early development of rural children aged 0 to 6. Early childhood development should be put higher on the agenda, with more proactive policy-making, measure implementation, and resource allocation, in order to provide governmental support and guarantee for the nutrition, health, education service, and family support of early childhood development.
